

Technical Support Section
Leisure and Cultural Services Department
Hong Kong SAR Government

Project Type: Conversion

Date of Completion: 2004

NGAU CHI WAN CIVIC CENTRE

The flexible seating units can be used to create numerous actor/audience configurations. When not required the seats are moved into a purpose built store allowing the space to continue in its old guise as an exhibition hall.

Black surround masking track around a full lighting truss, allowing the venue to be set up in less than 4 hours.

(Top Left) Arena
(Top Right) End
(Centre Left) Transverse
(Centre Right) Thrust
(Bottom Left) Exhibition
(Bottom Right) Typical seating unit
