

Project Type: Renovation

Date of Completion: 2012

## TSUEN WAN TOWN HALL – Cultural Activities Hall

The CA Hall has been refurbished to provide a new look, and a better working environment with better sight lines, new House Curtain and New Retractable Seating System.

New lighting and audio equipment has been embedded to the system to enhance the work for better services.

- New re-wired audio cables running from the stage to the control room
- New designed audio and lighting control room
- Media matrix system supported by SymNet Digital Signal Processor allowing full audio system back up
- New organized audio patching system
- New LED stage lighting

New Storage Room and New Tunnel to Exit for operation and performances flexibilities
